

You would like to spend your holiday at our campsite and have perhaps already browsed through our website!

There is some important information you should know before booking:

#### The location

- 'Le pont neuf' - the bridge that leads to the campsite is 2.70 m wide, the road uphill and then downhill again to the entrance of the campsite

There is only one road to access and leave the campsite. Please drive at walking pace.

The Drôme river flows along the campsite, where you can also swim. It is a sensitive ecosystem and we count on you to protect it.

We are located in a pine forest with pines, oaks, plane trees, poplars and birches.

The paths are gravel, we limit the paved areas.

Our accommodation is mostly shadowy and only the premium range has air conditioning. On summer evenings, it cools down a bit and air conditioning is often not necessary.

We are located in an area at risk of fire and flooding, so we place a high value on compliance with the basic rules: no cigarette butts, no fires. We will inform you of safety instructions upon your arrival.

We have various leisure areas: 2 boules courts, 2 swimming pools, a sports field, 2 table tennis tables and a playground for children.

For your safety, the 2 large slides are limited to a maximum height of 1.50 m and a maximum weight of 60 kg.

We are within walking distance of 2 supermarkets and you will find several shops and local businesses and a market on Wednesdays and Saturday mornings!

We accept dogs if they are kept on a lead (lead no longer than 3 m), also at the river.

- We try to reduce the paperwork at the reception: you can take pictures or scan documents, cards and you can scan QR codes and consult our website or the campsite app.
- Vehicle traffic on the campsite is limited to 10 km/h to protect pedestrians.

We ask you to keep the noise down on the campsite from 11 p.m. out of consideration for the other campers and for the well-being of everyone involved. Parents are responsible for their children.
